Project:1401 _____

Item: End Plate from 513 _____   Date Needed: _____

Request Description:
The end plate for the card joggler was missing on our 1402 from the beginning.
I saw one that would fit our machine on an artifact (an old IBM summary punch) in the large storage area. I discussed this with Dag and got his OK to remove it after explaining our need for one had gotten critical.

I removed the joggler end plate from the summary punch and installed it on the 1402 in the 1401 room. I tagged the summary punch machine in the large storage area explaining where the missing part was located.

Taken from: Mach. type IBM 513, Serial # 1622, Location = Storage Area CHM.
Installed on: Mach. type IBM 1402 Mod 1 Serial 1600743 C2, 1401 room CHM.
